PATRICIA ORENZA

Aspiring Data Analyst | Business Information Systems Undergraduate

Singapore | +65 9234 1817 | patorenza.work@gmail.com | linkedin.com/in/patricia-orenza | https://patriciaorenza.github.io/

PROFESSIONAL SUMMARY

Business Information Systems graduate with hands-on experience in SQL, Python, and Power BI, built through self-directed data projects and internships applying data and market research to business decisions at Performics (Publicis Groupe) and StratAgile. Comfortable across the data lifecycle: cleaning, structuring, analysing, and visualising datasets and translating findings into stakeholder-ready insights. Seeking an entry-level role in data analytics or business analysis.

CORE SKILLS

Data & Technical: SQL, Python, Microsoft Power BI (DAX), IBM SPSS Modeler, Google Analytics, Figma

Analytics Practice: Data Cleaning & Structuring, Data Visualisation, Business Requirements Analysis, Market Research, Data-Driven Decision Making

Professional: Critical Thinking, Stakeholder Collaboration, Adaptability, Leadership

DATA PROJECTS

Airbnb Data Warehouse & BI Analysis *Completed*

- Designed a star-schema warehouse (1 fact table, 5 dimensions, including an external tourism dataset) and built a Python ETL consolidating 94,945 listings across 11 regional files into 81,850 clean records.
- Loaded the warehouse into PostgreSQL and built a Power BI analysis with DAX measures comparing estimated Airbnb sales against state tourism spending.

VAFPQR – Secure QR Code Development *Completed*

- Led as Project Manager & Business Analyst for a 6-person team building a secure QR authentication system for a live client, from requirements gathering through UI/UX prototyping (Figma) to delivery — 26 of 27 test cases passed.

Spotify Listening Analytics *In progress*

- Product-analytics case study built on personal Spotify Extended Streaming History data.
- Cleaned and enriched the raw dataset in Python/Jupyter, then built out visualisations in Power BI.

HawkerAI – AI Demand Forecasting for Hawkers *In progress*

- Part of a 5-person team designing an AI forecasting tool to help Singapore hawkers cut food waste; the proposed approach compares Regression, Random Forest, and XGBoost demand-forecasting models (Kaplan AI for Impact Hackathon).

WORK EXPERIENCE

Media Intern | *Performics (Publicis Groupe)* *Aug 2021 – Oct 2021*

- Analyzed audience insights and consumer behavior trends using Global Web Index (GWI) data to support a full-funnel strategy pitch for Procter & Gamble (P&G).
- Tracked and reported on campaign performance monthly using Lumina Software and Google Analytics, translating metrics such as impressions, CTR, and conversions into optimization recommendations for a multinational account.

Digital Marketing Intern | *StratAgile* *Mar 2021 – Jul 2021*

- Analyzed performance data across digital campaigns to guide content strategy and optimization decisions for FinTech clients.
- Conducted market and digital trend research to support new business development pitches and client growth initiatives.

STEM Trainer (Freelance) | *EP Education Pte Ltd* *Jul 2026 – Present*

- Deliver curriculum-based IT/coding training programmes (Code for Fun) to student groups at schools islandwide, following Company lesson plans and MOE guidelines.
- Completed 56 hours of in-house trainer certification, MOE Instructor Registration System (IRS) registration, and the IMDA pre-deployment assessment to qualify for school deployment.

IT Learning Support | *ROHEI Learning & Consulting* *Mar 2021 – Jul 2021*

- Processed confidential participant data into structured Excel records with a high level of accuracy for live corporate training programs.

EDUCATION

Bachelor of Information Technology, Business Information Systems | *Murdoch University* *2023 – 2026*

Diploma in Business | *Temasek Polytechnic* *2019 – 2022*

LEADERSHIP & ACHIEVEMENTS

- ASEAN School Games Singapore Basketball Representative – 1 of 15 players selected nationwide to represent Singapore (2017-2018).
- Business Ambassador, Temasek Polytechnic – Analyzed social media KPIs and Google Trends data to present IoT recommendations to the Digital Business Transformation Centre (2019-2022).
